

DUSTIN REED

FOUNDING PRODUCT DESIGNER & DESIGN ENGINEER

dustinreed.co dr33d9@gmail.com linkedin.com/in/dreeddesign github.com/dabomba9

NAGUABO, PUERTO RICO, USA
US CITIZEN · REMOTE · EASTERN HOURS

I design products and ship the code.

Senior product designer and design engineer with 10+ years in design, the last 8 as founding product designer of CurbNTurf, a two-sided RV-camping marketplace on web, iOS, and Android. I own work end to end, from research and flows to the design system and the production React/Next.js/TypeScript that ships it. I prototype AI features in code against live model output and design how they fail gracefully.

279% Host sign-ups, year over year (2023)	**500+** Live listings at a 4.8 host rating
8 yrs Founding designer on one product	**10+ yrs** In design, web to native

EXPERIENCE

Founding Product Designer · CurbNTurf — DEC 2018 – PRESENT · REMOTE

- Designed the brand, the **two-sided marketplace**, and native **iOS/Android apps** for an RV and camping stay platform; now 500+ active listings at a 4.8 host rating.
- Drove a 2023 supply push that lifted **host sign-ups 279%** year over year; host growth has averaged about 90% a year since 2023.
- Designed **self-serve host onboarding** that removed the sales dependency: landowners set up listings and go live on their own.
- Designed the booking and checkout flow that captures the platform's 15% service fee, the company's only revenue stream.
- **Rebuilt the design system in code**: audited the palette (14 of 17 pairings failed contrast), rebuilt it as OKLCH design tokens, migrated surface by surface, and added a build check that fails below WCAG AA.
- Built the **production front end** in Next.js, React, and TypeScript, shipping through pull requests reviewed by engineers.
- Led the **v2 redesign with AI-assisted host onboarding**: prototyped in Claude Code against live model output and designed correction flows for model errors.
- Led creative direction as the company scaled to 10 people, working daily with the founder/CEO, engineers, and the field sales team, whose internal tools I designed.

Principal Designer · The Tink Tank, freelance studio — MAY 2018 – PRESENT · REMOTE

- Product and brand work for SaaS, healthcare, retail, and commerce clients alongside CurbNTurf, directing freelance designers and developers per project.
- **InfoCon + LRS**: two brand identities and a **self-serve quoting system** for a large-print book manufacturer; an instant price estimator moved most B2B quotes to self-serve, and the business tripled after launch.

Graphic Designer · Ivie — MAR 2017 – DEC 2018 · BOISE, ID

- National in-store campaigns for Albertsons (Fortune 500 grocer), concept through rollout across 2,000 stores.

Earlier: Graphic Designer, Vital Sign & Graphics (2015–2016) and Brigham Young University-Idaho (2014–2016), Rexburg, ID.

PROJECTS — BUILT END TO END

StickyFlow
AI systems built in clients' own accounts: RAG chatbots, LLM API integrations, and agent workflows in custom code, with an interface layer for how agents surface reasoning, signal confidence, and recover from errors.

Dominó Caribe `dominoes-zeta.vercel.app`
Caribbean dominoes with Dominican, Puerto Rican, and Cuban rules, in Spanish and English. Strict TypeScript, a written rules spec as the source of truth, and 607 automated tests.

SKILLS

PRODUCT DESIGN
Zero-to-one · Two-sided marketplaces · Self-serve onboarding · Design systems · iOS & Android · Search & IA · Prototyping · Usability testing

FRONT END
React · Next.js · TypeScript · Tailwind · CSS · Design tokens · Playwright · GSAP · Webflow

AI
Anthropic, OpenAI, Gemini APIs · RAG · Agent design · Claude Code · Cursor

TOOLS
Figma (variables, libraries) · Illustrator · Amplitude

ALSO
Brand & identity · Art direction · WCAG AA · SEO · Landing-page conversion

MORE WORK

Coqui Cardboard `coquicardboard.com`
A 24,000-card sports-card catalog with command-palette search, built in Next.js and Supabase.

This portfolio `dustinreed.co`
Hand built. A colour control rotates hue in OKLCH at constant luminance, keeping all 340 contrast ratios, with WCAG AA checks that fail the build.

EDUCATION

BA, Graphic Design
Brigham Young University-Idaho, 2016

LANGUAGES

English (native) · Spanish (fluent)
